Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The examiner agreed that the region (107a) is not a channel region but merely a channel stop region, as stated in col. 8, lines 16-19 of Eitan et al. Furthermore, Applicant agreed to delete the term "whereby" and to insert the term "wherein" in claim 1, line 22; claim 8, line 16; and claim 16, line 23. In addition, the reference sign 58 in Figure 3d and page 8, line 5 (after drain regions) of the specification should be changed to 59. The examiner pointed out that by doing such corrections the application will be allowed.
